MEMORANDUM FOR: Chief, Forces Division, GRR

25X1A ATTENTION: [REDACTED] Strategic Forces Missiles Systems Branch
THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS
FROM: Chief, CIA/PID (NPIC)
SUBJECT: ICBM Ready Buildings, Itatka ICBM Site
REFERENCES: (a) Requirement C-RR-4-81,790
(b) CIA/PID Project C 1478-64

25X1D

25X1D 1. This memorandum is in response to your requirement dated [REDACTED]
25X1D [REDACTED] which requests measurements relating to objects in front of the missile
25X1D ready buildings at Launch Sites A and B, Itatka ICBM Complex, USSR, on [REDACTED] 25X1D

25X1D 2. Image quality on [REDACTED] is such that positive identification
25X1D and measurement of small objects in the vicinity of the ready buildings is
25X1D not feasible. On [REDACTED], there are two objects protruding from the
shadow in front of the ready building at Launch Site A, Figure 1, and measure-
ments are shown on Figure 2. It should be emphasized that no conclusion can
be drawn as to their total length.

At Launch Site B there are two very small probable vehicles in front of
the ready building and distinctly-separated from it. These are shown in Figure 3.
Additional measurements on vehicles present at other locations around the sites
are provided. All are from CIA/TID (NPIC). 25X1A

3. The photo analyst on this project is [REDACTED] who may be contacted
on extension 2078 should you have any further questions concerning this project.

4. This project is considered to be complete.

[REDACTED] 25X1A
